EXPERIENCE

Planning and Development Office, Bulacan State University — Malolos, Bulacan
Front-end Developer Intern — June 2025 – September 2025

- Resolved 40+ technical tickets in 2 months, accelerating development cycles across bug fixes, UI enhancements, and feature requests.
- Developed responsive UI components (Admin Dashboard, Slideshows, Account Settings) using the MERN stack, improving accessibility and streamlining site navigation through interactive user interfaces.
- Optimized team workflow by building a library of reusable components (navigation bars, footers) and custom Tailwind CSS classes using TypeScript, reducing development redundancy.

EDUCATION

Bulacan State University — Malolos, Bulacan
Bachelor of Science in Computer Engineering, Consistent Dean's Lister — Expected June 2026

St. Francis de Assisi Montessori School — Plaridel, Bulacan
Senior High School STEM Strand, With Honors | Best Thesis Presenter — May 2022
Junior High School, With High Honors — March 2020

LEADERSHIP AND ACTIVITIES

SmartStroke Thesis — Malolos, Bulacan
Lead Developer & Researcher — August 2025 – March 2026

- Designed a sensor-enhanced marker attachment utilizing a 9-axis IMU and Force Sensitive Resistor to digitize traditional handwriting.
- Built a real-time React web application that captures and renders handwritten input from sensor data with minimal latency.

Institute of Computer Engineers of the Philippines (ICpEP.SE) — Malolos, Bulacan
Public Relations Officer 1 (BulSU Chapter) & Region III Member — May 2025 – March 2026

- Competed in the ICpEP Region III Logic Breadboarding Competition (March 2026), demonstrating proficiency in digital logic circuit design and hardware prototyping.
- Managed chapter communications and public relations initiatives for the university's computer engineering student organization

Huawei ICT Academy — Malolos, Bulacan
Innovation & Computing Track Participant — November 2024– November 2025

- Competed in the Innovation Track (December 2025) featuring the SmartStroke handwriting digitization system as the official project entry.
- Completed foundational training in openEuler (OS), openGauss (database management), and Kunpeng processor architecture.

SKILLS

Core: React, TypeScript, Tailwind CSS, Node.js, Express
Web Development: HTML, CSS, JavaScript, Vue, Laravel
Programming Languages: JavaScript/TypeScript, Python, Java, C/C++, PHP, Dart
Databases & Tools: MongoDB, Firebase, SQL, PNPM, Figma
Mobile Development: Flutter, React Native
Professional Skills: Leadership, Critical Thinking, Project Management, Technical Communication
Languages: English (Fluent), Filipino (Native)
